

AN AMERICAN TRADITION IN TRANSPORTATION

LOGISTICS EXPERIENCE
DRIVING INNOVATIVE
EFFICIENCY

You need logistics that deliver your product to its destination **on time, every time. When this happens, your customers gain consistent confidence in your company.**

Syfan Logistics is in the business of delivering confidence. It's what we've been doing for over 40 years; no one does it better.

SYFAN AN AMERICAN TRADITION IN TRANSPORTATION

SYFAN LOGISTICS: Along with asset-based Syfan Transport provides a diverse array of shipping services – with the highest level of transparency and reliability.

24/7 OPERATIONS: Dedicated full-time communications staff – an important distinction separating us from other shipping companies. We do NOT rely on a third-party call center to communicate with our customers, which provides even greater support.

GROWTH: More than 450 professional team members and growing.

REACH: With a service region stretching across the United States, Mexico and Canada, we deliver on promises to our shipper partners with loads of confidence.

CUSTOMIZED EXPERIENCE WITH 24/7 COMMUNICATION

- **SYFAN TECHNOLOGY THAT WORKS FOR YOU:** Syfan provides each customer with a private website portal and designated professional team with the knowledge of your business and specific logistic requirements.
- **24/7 OPERATIONS ALWAYS GUIDING YOUR SHIPMENT:** Dedicated full-time communications staff – an important distinction separating us from other shipping companies. We do NOT rely on a third-party call center to communicate with our customers, which provides even greater support.
- **COMMUNICATION:** We keep you posted on your loads every step of the way with the most advanced communications possible through our special technology partnership with McLeod Software systems.
- **GPS-ENABLED TRUCKS** with 24-7 tracking. EDI and API electronic capabilities.

THE SYFAN ADAPTABILITY

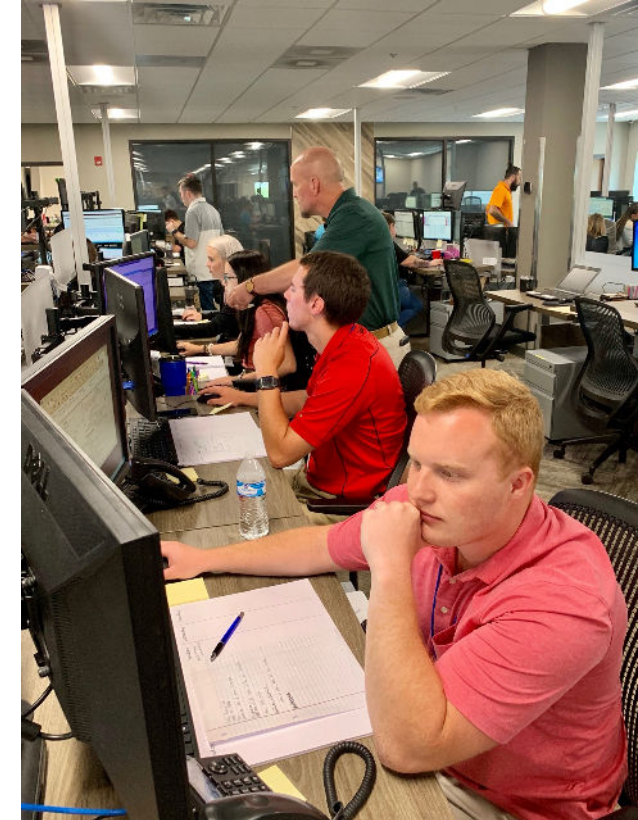

AN AMERICAN TRADITION IN TRANSPORTATION

SYFAN SCALES TO YOUR SHIPPING NEEDS

- All carrier partners must meet our extensive background check, contract set-up and safety compliance.
- No “Conditional Safety Rated Carriers” allowed.
- Stringent insurance and interchange requirements.
- Partnership is a key to success.
- Accountability – holding drivers accountable.
- Our experience.
- Extensive nationwide network through like business models and customers.

SUSTAIN ABILITY

THE SYFAN COMMITMENT

AN AMERICAN TRADITION IN TRANSPORTATION

ETHICAL SOLUTIONS to reduce our carbon footprint

Achieved through corporate partnerships and company-wide initiatives, **Syfan Logistics** is focused on a sustainable future for the transportation industry.

AN AMERICAN TRADITION IN TRANSPORTATION

SYFAN SUSTAINABLE INITIATIVES

To achieve our goal of building a more sustainable supply chain, Syfan Logistics has developed the following solutions:

- **More energy efficient tactics implemented during our expansion.**
 - Use of recycled material
 - Switch to LED lightbulbs to further contribute to energy conservation
- **Recycling of electronics**
- **One way oil recycling program in our truck shop**
- **Metal recycling** (steel and aluminum)
- **Route optimization**
 - Ensuring efficient routes for our carrier partners
- **Reduction of physical paperwork** through the adoption of digital contract services, digital customer portals, and electronic signatures for invoices.
- **Elimination of empty miles** for our Syfan Transport fleet and our carrier partners on every delivery. The miles we travel (and emissions we produce) have been reduced by utilizing more efficient tracking and routing methods.

SYFAN FLEET OVERHAUL

Transition to a fleet of electric trucks

to reduce harmful emissions and pollution. With the goal of having a fully electric fleet by the year 2035, we have already ordered two Tesla Electric Trucks. These Tesla trucks will be known as the gold standard of efficiency once they hit the road—a gradual replacement of our entire fleet will begin with these first two electric haulers.

SYFAN SUSTAINABLE COMMITMENT

We partner and are contracted with 292 carriers that are SMARTWAY Certified.

Launched in 2004, this EPA-developed voluntary public-private program:

- **Provides** a comprehensive and well-recognized system for tracking, documenting and sharing information about fuel use and freight emissions across supply chains.
- **Helps** companies identify and select more efficient freight carriers, transport modes, equipment, and operational strategies to improve supply chain sustainability and lower costs from goods movement.
- **Supports** global energy security and offsets environmental risk for companies and countries.
- **Reduces** freight transportation-related emissions by accelerating the use of advanced fuel-saving technologies.
- **Is supported by** major transportation industry associations, environmental groups, state and local governments, international agencies, and the corporate community.
