

LTL SOLUTIONS

**NO MATTER HOW YOU DIVIDE IT,
WE'VE GOT YOU COVERED.**

Syfan's 3PL LTL Division, or Less Than Truckload Division, manages each shipment for a customer for greater efficiency, increased cost savings, and less environmental impact.

"OUR LTL DIVISION CREATES SOLUTIONS SPECIFIC TO EACH INDIVIDUAL CUSTOMER," DEPARTMENT HEAD RODNEY LAMB SAYS, "AND THAT'S VERY IMPORTANT AND ESPECIALLY APPRECIATED IN THE LTL WORLD."

Lamb stresses that Syfan LTL customers can count on white-glove service, experience, and – most importantly – never any handoffs. "One Syfan team will work with one customer," he says. Communication is a big issue for LTL customers – which plays into a recognized strength across all of Syfan's 3PL services. "Whether the news is good or bad, we will communicate it to keep customers informed from start to finish."

In addition to personal contact, Syfan LTL uses an automated email notification system for constant updates as well as a private customer portal available on our website. The Syfan LTL team has been assembled to handle any load sent its way. Each team member has real-world LTL experience in the ever-changing field and is diligent in following daily changes to National Motor Freight Classification (NMFC) and other regulations governing the industry. Whether you're a shipper looking for LTL services or an LTL carrier looking for a partner, give us a call. Syfan LTL promises to deliver.

HOW IT WORKS

**SYFAN
LOGISTICS**
An American Tradition in Transportation

— IN GOD WE TRUST —

LESS THAN A TRUCKLOAD:

- **Enhanced LTL Service:** Our LTL services offer flexibility, enhanced control, and reduced costs.
- **Value-Driven Approach:** We help drive value and empower customers to focus on their core business.
- **Exceeding Expectations:** We consistently meet and surpass all expectations and critical deadlines.
- Expedited services available.
- **Same-Day Service:** Experience our reliable same-day delivery options.
- **Expert NMFC Team:** Our experienced NMFC team practices proactive analysis to optimize every shipment.
- **Accurate Billing:** We ensure invoice accuracy through a comprehensive audit function throughout the shipment lifecycle.
- **Syfan Customer Portal TMS:** Access to our Syfan Customer Portal for streamlined Transportation Management System (TMS) services.

LTL/TL PROJECT MANAGEMENT:

- **Rapid Response Capabilities:** Equipped to respond quickly to your needs.
- **Customized Planning and Transparent Reporting:** Benefit from tailored solutions accompanied by transparent and consistent reporting.
- **On-site Syfan Representatives:** Our representatives are readily available to assist you.
- **Adaptability:** We offer the flexibility to quickly react and adapt to evolving demands.
- **No Job Too Big or Too Small:** We handle projects of all sizes with equal dedication.
- **Specialized Project Teams:** Let us assemble a specialized and dedicated project team to tackle any of your challenges.

**WE PROMISE, WE DELIVER.
