## CUSTOMIZED EXPERIENCE WITH **24/7** COMMUNICATION

### SYFAN TECHNOLOGY THAT WORKS FOR YOU:

Syfan provides each customer with a private website portal and a designated professional team with the knowledge of your business and specific logistics requirements.

### 24/7 OPERATIONS ALWAYS GUIDING YOUR SHIPMENT:

Dedicated full-time communications staff – an important distinction separating us from other shipping companies. We do NOT rely on a third-party call center to communicate with our customers, which provides even greater support.

### COMMUNICATION:

We keep you posted on your loads every step of the way with the most advanced communications possible through our special technology partnership with McLeod Software systems.

### GPS-ENABLED TRUCKS:

24/7 tracking, EDI and API electronic capabilities.  
Real-time Rating API Technology capabilities.

## PLANNED SERVICES / PARTNERED SUCCESS

### **FRAUD HIGHWAY SERVICES**

Our Carrier Services department utilizes Highway and Carrier411 for carrier onboarding. By cross-checking all interactions, we ensure the highest quality and the most seamless onboarding experience possible. These multifaceted technologies also allow us to strengthen our protection against fraud.

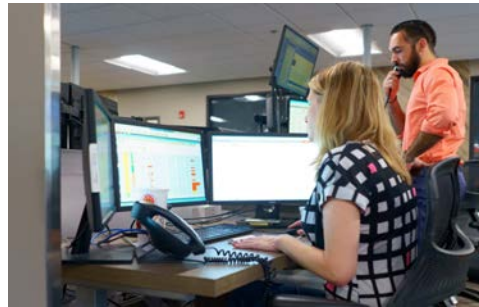

- **ID verification of all users.**
- **VIN verification and ELD connections to verify fleet.**
- **Real time safety ratings and insurance verification.**

Fraud prevention requires us to stay on top of current industry trends and deploy policies that will help us leverage technology to protect our customers' freight.

- Stringent insurance and interchange requirements. Partnership is a key to success.
- Accountability – holding drivers accountable. Our experience.
- Extensive nationwide network through like business models and customers. Access to over 45,000 carrier partners within our network.
- Ability to assign and build a dedicated support team at a moment’s notice. Over 450 administrative staff on hand.
- No volume is too big.
- Real time updated safety.
- Easy & seamless set up that houses data: Highway vets, screens, and helps prevent against fraudulent carriers.

# SUSTAIN ABILITY

AN AMERICAN  
TRADITION IN  
TRANSPORTATION

 **SYFAN**  
LOGISTICS  
— IN GOD WE TRUST —

## **SYFAN SUSTAINABLE INITIATIVES**

To achieve our goal of building a more sustainable supply chain, Syfan Logistics has developed the following solutions:

- Syfan provides Primary Cargo Insurance
- More energy-efficient tactics implemented during our expansion, including:
  - Use of recycled material
  - Switch to LED lightbulbs to further contribute to energy conservation
- One way oil recycling program in our truck shop
- Metal recycling (steel and aluminum)
- Route optimization
  - Ensuring efficient routes for our carrier partners
- Reduction of physical paperwork through the adoption of digital contract services, digital customer portals, and electronic signatures for invoices
- Elimination of empty miles for our Syfan Transport fleet and our carrier partners on every delivery. The miles we travel (and emissions we produce) have been reduced by utilizing more efficient tracking and routing methods.
  - Goal: Increase Smartway Certified Trucking companies we do business with
  - Goal: Improve our per mile emissions ranking

## **SYFAN SUSTAINABLE COMMITMENT**

We partner and are contracted with 292 carriers that are SMARTWAY Certified. Launched in 2004, this EPA-developed voluntary public-private program:

Provides a comprehensive and well-recognized system for tracking, documenting, and sharing information about fuel use and freight emissions across supply chains.

Helps companies identify and select more efficient freight carriers, transport modes, equipment and operational strategies to improve supply chain sustainability and lower costs from goods movement.

Supports global energy security and offsets environmental risk for companies and countries.

Reduces freight transportation-related emissions by accelerating the use of advanced fuel-saving technologies.

Is supported by major transportation industry associations, environmental groups, state and local governments, international agencies, and the corporate community.

**TRUST  
IS EARNED AND VALUED.  
LONG TERM RELATIONSHIPS  
CREATE ADVANTAGES  
AND RESULTS.**
